

SEVENTH FRAMEWORK PROGRAMME: FP7 “Marie Curie Actions”-PEOPLE Co-funding of Regional, National and International Programmes-COFUND. AMAROUT PROGRAMME

AMAROUT Europe is a Marie Curie Action (PEOPLE-COFUND) to foster and consolidate the European Research Area by attracting to Europe and, in particular, to the region of Madrid top research talent. The programme AMAROUT is driven by IMDEA ("Madrid Institute for Advanced Studies") the new institutional framework established by the Government of the Region of Madrid to effectively combine and increase both public and private support for research of excellence in the region. IMDEA comprises a network of research institutes in areas of high economic impact.

IMDEA Water is open to receive applications by postdoc or senior researchers willing to join one of its water research units.

Both "**experienced**" (at least 4 years of research experience - full time- and a doctorate), and "**very experienced**" - more than 10 years research experience and occupy a position at the research leader level - researchers from any country (worldwide) can apply for AMAROUT fellowships in one of the following two mobility types: "incoming" and "reintegration".

- "**Incoming**" fellows must be non-nationals/non-residents from Member States or Associated Countries.
- "**Re-integration**" fellows must be nationals from Member State or Associated Countries having carried out research in a Third Country for at least 3 years.

Next cutoff date: **2nd January 2010**
